

NOTE ON March 2009 ERRATA SHEETS

IN RELATION TO THE SBCC DOCUMENTATION ISSUED IN LATE 2007 AND 2008

It has been identified that changes are required in the undernoted documents to address the following issues:

- 1 In the JCT documents the Conditions are simply contained within the Contract and are not specifically incorporated into the Contract. In order to effect this change in the SBCC Contracts an additional Article has been inserted where required to specifically identify what the Contract consists of and to incorporate the Conditions into a part of it. In some documents the clause consenting to registration has now been inserted.
- 2 In the Guides/ Guidance Notes the style of wording has been amended to replace the word "Schedule" with either "Appendix" or "Conditions and any other annexures". The wording has been amended to make it contract specific. As originally drawn it reflected the position in the main Standard Building Contract.
- 3 Some minor corrections have been made including to the contents pages.
